

Brook

Firmware Update Guide

Ras1ution 2

This document describes how to update the firmware of Brook Ras1ution 2.

- ⚠ **NOTE** : The update must be done on a PC; it cannot be done on a console.
- ⚠ **NOTE** : Make sure your PC is connected to the internet.
- ⚠ **NOTE** : You may try to disable antivirus, or run the program as administrator.

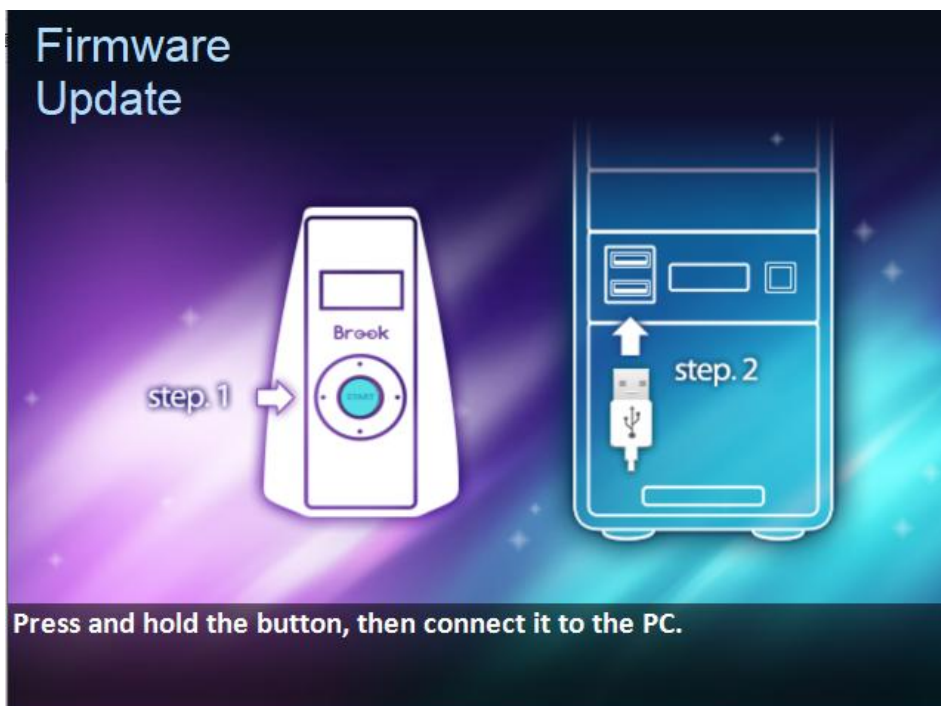

STEP 1 Download the update file from “[Download](#)” on Brook website:

www.brookaccessory.com

Unzip it, and execute the program

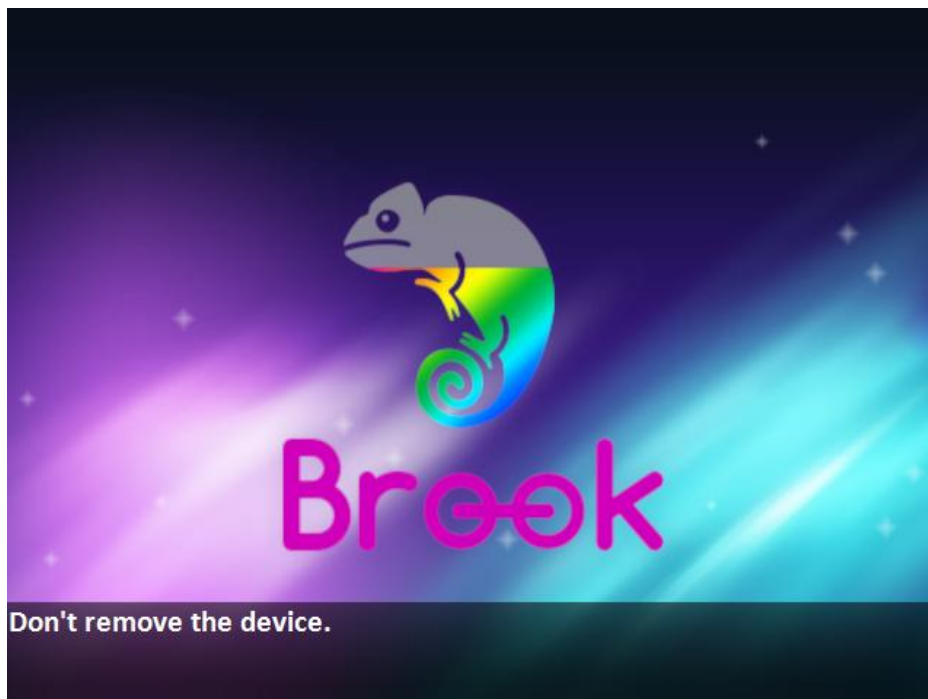

STEP 2 Hold down the button, then connect Ras1ution 2 to PC

STEP 3 Click START to update

STEP 4 **DO NOT** disconnect during the update process

STEP 5 Update completed.

STEP 6 In case firmware update fails, the following screen will show, and please try to redo the setup from the beginning.

You can try the following troubleshooting methods

1. Close the window and start over the update
2. Plug the converter to other usb port
3. Go to Devices and Printers to remove PS4 Wired Gamepad.

Then, unplug the converter, and plug it back to PC to let PC drive it again.

When it's successfully driven, you will see PS4 Wired Gamepad show up in Devices and Printers again.

You can then execute the firmware update.

4. Try it on other PCs.
5. Delete Logitech Gaming / Logitech G hub Software
